Building together the future of learning!

The LLLPlatform...

The LLLPlatform was created in 2005 as a permanent platform of cooperation and dialogue for lifelong learning actors. It is the only European platform where initial, vocational and continuing education and training, adult education and non-formal education representatives work together. The LLLPlatform is not a classic network; it has a specific role to play and provides significant added value to its members.

The Platform has become a key player in the field, recognised and appreciated by all EU institutions. Benefit from this privileged partnership!

STRATEGIC
PARTNERSHIPS

ENABLES EXCHANGES OF PRACTICES AND EXPERTISE

Because building **partnerships across sectors** is a pre-condition to build learning societies and is **highly valued as a prerequisite for successful initiatives** for instance within Erasmus+, we offer you a **forum for cooperation** between **key players in the field of education and training**. We help you **find new partners to build and share innovative projects** in VET, adult education, higher education, youth and schools as well as networks of local authorities, parents, educators, HR professionals, school heads...

GIVES A VOICE TO YOUR CONCERNS AND CONNECTS YOU

Thanks to our participation in EU Expert Groups, we sit at the table of negotiations and have the capacity to send **strong messages to EU institutions**. These messages are built on our **position papers**, written in collaboration between our members and policy team. We also provide **support in your own advocacy** activities and give visibility to your initiatives during our events, in our publications and at meetings with decision-makers. **Your actions** are also advertised in our newsletter, on our website and in our social media communication to ensure the **greatest visibility** possible.

PROMOTES A MORE DEMOCRATIC, CIVIC AND SOCIAL EUROPE

We advocate for **stronger consultation and participation** processes for all stakeholders at all levels. European organisations benefit directly from those actions as it opens doors for their own sector. We are a member of different **civil society groups**, work closely with EU Committees and social partners. Our members benefit directly from this **privileged position** in order to push forward and promote a more democratic, civic and social Europe.
