## CHILDREN AND ADULTS: IT IS TIME TO ACT2GETHER!

If children and adults act as competent partners in addressing today's challenges, we can create a world that is fairer, more sustainable, and where everyone can realise their unique potential.

ACT2gether is an initiative that promotes partnership between generations in all environments as a way to address some of the challenges we face today. It aspires to become a hub that gathers, shares and strengthens inspiring examples of intergenerational partnership in sectors like education, health, family, justice or art.

ACT2gether is an intergenerational approach to fulfil children's right to participate by placing the potential of partnership between children and adults at the centre.

## 2GETHERLAND: A SPACE WHERE AGE IS NOT A BARRIER

2getherLAND is imagined, hosted, and evaluated by a team of child and adult volunteers.

2getherLAND is the gathering activity strand of the global movement, called ACT2gether. After 2getherLAND Germany (Oct. 2019), The Netherlands will host the first 2getherLAND Global, inviting people from all generations to come and co-create ACT2gether as an international initiative.

## GOALS

These are the questions we want to explore with about 240 children and adults from all over the world:

- How can we together create an international movement that supports partnership between children and adults in creating a fair and sustainable world?
- What is the role of intergenerational partnerships in achieving the Sustainable Development Goals 2030?
- What are the conditions that allow children and adults to act as competent partners in improving their lives and communities?
- What are the skills and abilities needed for both children and adults to act as competent partners?

## CO-CREATE ACT2GETHER WITH US!

The programme is built on two pillars:

*Strategy:* In this first edition of 2getherLAND Global, participants will have the unique opportunity to co-create a strategy for creating a global community that practices and promotes partnership between children and adults as means to achieve greater fairness and sustainability. Help shape the future of this international movement!

*Capacity:* You will also have the chance to strengthen your, or your delegation's, capacity to imagine, plan and implement a project done in partnership by developing knowledge and skills that enable generations to work together and connecting.

Don't miss this opportunity to become part of something bigger, creating real change! For more information, contact us at [info@learningforwellbeing.org](mailto:info@learningforwellbeing.org) and follow-us through social media.
